Magnetic Reporting of W-2 Information to Michigan Department of Treasury

General Information

The Michigan Department of Treasury requires employers with 250 or more Michigan employees to file MI-W-2 information on magnetic tapes or diskettes. Smaller employers are encouraged to use magnetic media, but may file using the state copy of the federal W-2. W-2 reports are due February 28. Late filing is subject to penalty as provided under the Revenue Act.

Effective January 1, 2002 it is mandatory for Social Security Administration (SSA) reporting to use the MMREF-1 format as published by the Department of Health and Human Services. The State of Michigan will accept both the TIB-4 (current state format) and the new federal MMREF-1 format. **If you choose to send us a copy of your federal filing, you must be sure that the Code RS State Record** (optional for federal reporting) **is filled in.** Within the RS record, we will be looking for the following positions:

1-2	Record Identifier	117-138	City
3-4	State Code "26"	139-140	State Abbreviation
5-9	Blank	141-145	ZIP Code
10-18	SSN	146-149	ZIP Code Extension
19-33	Employee First Name	150-247	Blank
34-48	Employee Middle Name	248-267	State Employer Acct #
49-68	Employee Last Name	268-275	Blank
69-72	Blank	276-286	State Taxable Wages
73-94	Location Address	287-297	State Income Tax Withheld
95-116	Deliver Address	298-512	Blank

We will ignore any other fields included in this record.

You do not need to apply in advance to submit W-2 information on magnetic media, or submit test media. You must, however, file the *Transmittal for Magnetic Media Reporting of W-2s, W-2Gs and 1099s to the State of Michigan* (Form 447) with your magnetic tapes or diskettes. If this form is not completed and included with your media, your media may be rejected and returned to you unprocessed.

If your transmittal, tapes or diskettes indicate any unacceptable specifications, they will be returned to you. If your tapes or disks are returned, it is your responsibility to resubmit them in an acceptable format. However, the original submission is considered a timely filing if it was mailed by February 28.

Do not enclose your annual return with your W-2 report. Mail your annual return to the address on

the form. Mail your W-2 reports to the address below. Do not send paper W-2 reports with a magnetic W-2 report. Do not duplicate on paper forms any information filed on magnetic media.

Waivers and Extensions

Section 365, subsection 1, of the Income Tax Act of 1967, [MCL 206.365 (1)] states that a duplicate of form W-2 made pursuant to this section and an annual reconciliation return shall be filed with the Department of Treasury by February 28 of the succeeding year.

Consequently, the department cannot grant an extension.

Retention

Tapes and disks that are acceptable to process will not be returned. You should keep a copy of your magnetic media file for 14 months. You must keep a copy of the W-2 data, or be able to reconstruct the data, for six years after the due date of the report.

Corrections

Corrected magnetic media files should be clearly marked "*CORRECTED*" and sent to the address below. Paper W-2Cs that are correcting W-2s submitted on magnetic media should also be sent to the address below.

Mailing Information

The tapes or diskettes must arrive in good condition. Tapes must be placed in plastic reel containers and packed in cartons. Diskettes must be packed in cardboard diskette mailers. The packages should be labeled as containing magnetic media and should be marked "fragile."

Ship packaged magnetic media with your completed transmittal (Form 447) to:

Michigan Diskette Technical Requirements

Data must be recorded in ASCII on 3.5 inch double density or high density diskettes. **We do not accept 8 inch diskettes.** When transferring files from 8-inch diskettes, use only the DOS random file format. Do not use the ASCII text file format. Each diskette must contain the entry W-2REPORT as the file name. The diskette must not contain any files other than W-2REPORT. Record data in upper case letters only.

Label each diskette on the outside with this information: name and FEIN of transmitter, type of document represented (W-2), payment year and number of employees. For multi-volume diskette reports, the diskette labels MUST indicate the proper sequence (e.g., Vol. 2 of 3).

We require the data below for each diskette submitted. If the diskette contains records or data other than that listed, it will not be read. Record length must not be more than 128.

Diskettes must be formatted with DOS 2.X or above. Be sure to format the diskette to the proper size. Don't format double density diskettes as high density diskettes. If a multi-volume file is needed, create it using the DOS "backup" command. Do the backup from the root directory of your C: drive.

MI-W-2 employee name and address and state tax information must be reported in the Code 1S and 2S record (these are defined in the federal specifications but are optional for federal filing.) In most cases we can accept a copy of your federal diskettes as long as employee information is properly recorded in the Code 1S and 2S records.

Michigan Tape Technical Requirements

Each reel of tape must be identified externally with a stick-on label listing name and federal employer identification number (FEIN) of transmitter, type of document represented (W-2), payment year, number of employees, density, recording mode, record size and blocking factor.

Treasury will accept tapes with data written on half inch magnetic tape in the unpacked mode on 9-track tape. 6250 bits per inch recording density is preferred; but 1600 bits per inch is also acceptable. We will accept tapes with odd parity. We are able to process tapes with a choice of options in each category -- Recording Mode: EBCDIC/ASCII; Internal Labels: Optional; Tapemarks: Optional; Record Length: 276; Blocking Factor: 1-25 is acceptable. We will accept low order signed fields or unsigned fields only.

We will accept IBM 3480 compatible half-inch tape cartridge, 18-track non-compressed, written with ANSI X3.27 1969 (ANSI69) tape labels. For IBM sites, this is an "IBM nonstandard label." The data and labels should be written in EBCDIC. The density is 38,000 bpi.

MI-W-2 employee name and address and state tax information must be reported in the Code S record (S records are defined in the federal specifications but are optional for federal filing.) In most cases we can accept a copy of your federal tape as long as employee information is properly recorded in the S record.

W-2G and 1099 Series Forms

We do not require the filing of W-2G or 1099 information by payers unless Michigan taxes have been withheld.

Michigan does not participate in the combined Federal/State Filing Program of W-2G or 1099 series forms and we cannot accept the tape or disk format provided by the federal government for W-2G or 1099 information. Payers with 250 or more W-2G or 1099 records to report must file the information to Michigan using the W-2 magnetic media specifications. Payers with fewer than 250 W-2G or 1099s to report may file either magnetic media or the paper copy of the W-2G or 1099 with the annual return.
